CONTENT AND LANGUAGE INTEGRATED LEARNING

WA CLIL CONFERENCE 2017

“CLIL refers to situations where subjects, or parts of subjects, are taught through a foreign language with dual-focused aims, namely the learning of content and the simultaneous learning of a foreign language.” Professor David Marsh, University of Jyväskylä, Finland (1994)

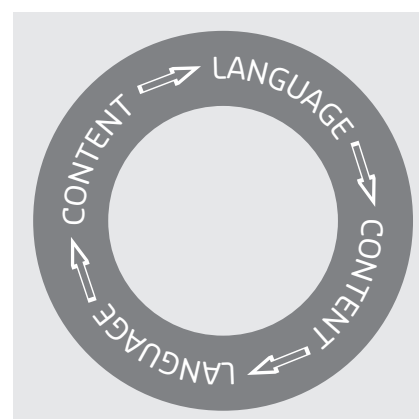

CLIL (Content and Language Integrated Learning) gets teachers and learners to rethink what it means to be someone learning another language. Students may not be passionate about learning grammar, but they can be excited to learn about nature, or sport, or something new, in another language.

If you have students who are unfamiliar with a language (TESOL, TEFL, LBOTE, TEAL, EAL/D, 2LA, etc.), or if you lead those in your school who do, then this conference is for you. We have local, interstate and international experts, both researchers and practitioners, who will help you enrich the language learning experience.

Through this conference you will gain:

- a better understanding of the theoretical background of CLIL
- experience to develop approaches to CLIL for your personal teaching context
- network opportunities with your peers and knowledge experts in this area.
- a certificate of professional learning.

For more info and registration, go to www.bit.ly/WACLIL2017 or google “Curtin WA CLIL 2017”

Make tomorrow better.

Modern Language Teachers' Association of WA

This conference is a collaboration between the Curtin University School of Education Professional Learning Hub and the Modern Language Teaching Association of WA.

WA CLIL CONFERENCE 2017
